ERCOS

Ogni prodotto nasce dall’ascolto delle reali esigenze del vivere quotidiano. Progettiamo soluzioni per l’ambiente bagno con un approccio funzionale, essenziale e curato, dove qualità, praticità e coerenza estetica si traducono in valore concreto per chi realizza spazi e chi li abita ogni giorno.

Every product is created by listening to the real needs of everyday life. We design bathroom solutions with a functional, essential, and refined approach, where quality, practicality, and aesthetic coherence are translated into tangible values for those who build spaces and those who experience them daily.

Ercos SpA è un'azienda Italiana con oltre 50 anni di esperienza nella progettazione e produzione di soluzioni per il bagno e il riscaldamento. Nasce nel 1967 come impresa familiare in Franciacorta, e ha saputo evolversi crescendo nel tempo senza perdere il legame con le proprie radici manifatturiere e facendo del lavoro il vero e proprio patrimonio aziendale.

Oggi l'azienda unisce l'affidabilità di una lunga tradizione alla spinta di una costante innovazione investendo in processi produttivi sempre più efficienti e sostenibili, e più recentemente, integrando strumenti di intelligenza artificiale per una ottimizzazione delle attività quotidiane e riduzione della complessità operativa.

La produzione di radiatori, sedili e piatti doccia in composito di marmo si svolge interamente nei propri stabilimenti, così come l'assemblaggio di semilavorati

Ercos SpA is an Italian company with over 50 years of experience in designing and manufacturing bathroom and heating solutions. Founded in 1967 as a family business in the heart of Franciacorta, the company has grown steadily over the years while preserving its manufacturing roots and embracing work as a true corporate value.

Today, Ercos combines the reliability of long-standing tradition with the drive for continuous innovation, investing in increasingly efficient and sustainable production processes. More recently, it has integrated artificial intelligence tools to optimize daily operations and reduce management complexity.

All production—radiators, toilet seats, and marble composite shower trays—is carried out entirely in-house, including the assembly of carefully selected components sourced from qualified suppliers. This winning

ERGOS

accuratamente selezionati da fornitori qualificati. Una combinazione vincente che permette di garantire elevati standard qualitativi e miglioramenti costanti, unita alla dedizione per il proprio lavoro di ogni singola risorsa coinvolta, che con la propria professionalità, partecipa nel rendere ogni prodotto speciale.

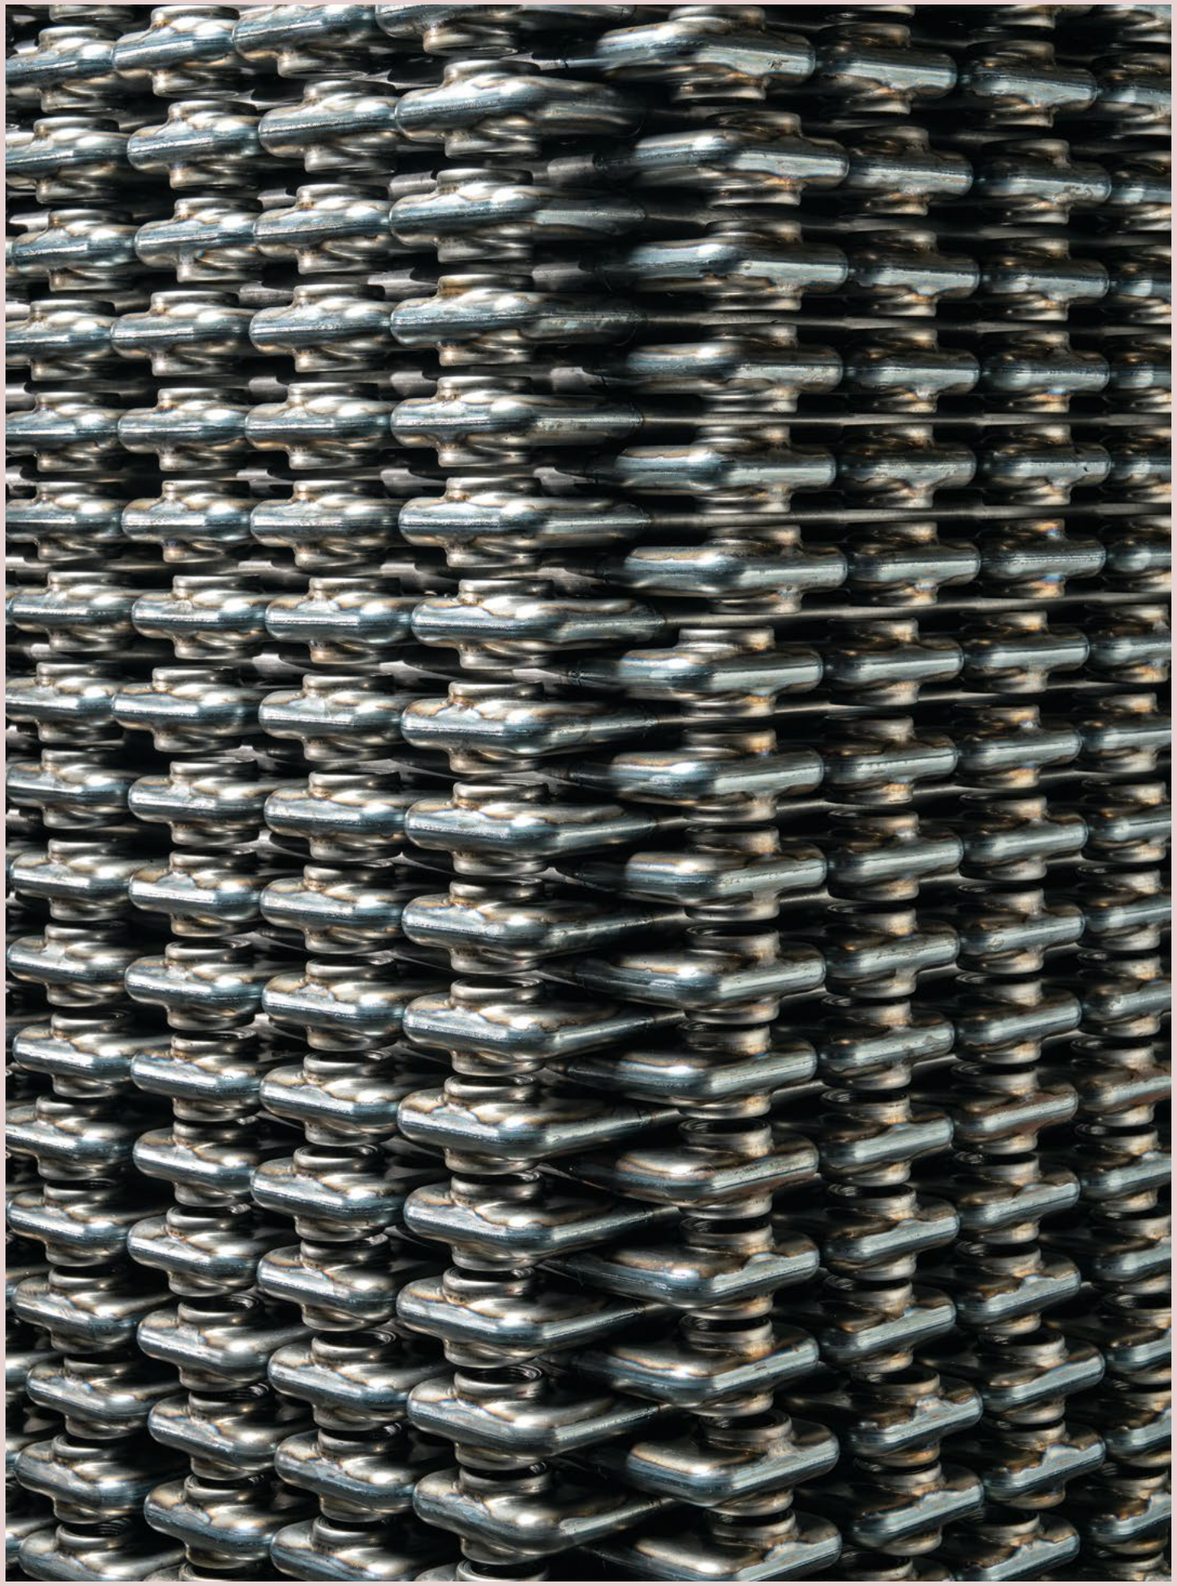

Al centro di tutte le attività ci sono le persone: clienti, progettisti, installatori, consumatori e tutti i collaboratori, con cui Ercos continua a costruire relazioni basate su fiducia, competenza e ascolto. L'obiettivo è da sempre quello di offrire soluzioni funzionali, esteticamente curate e pensate per durare nel tempo.

Ercos continua così a crescere con una visione solida e contemporanea: portare il comfort negli spazi abitativi pubblici o residenziali, con prodotti che uniscono tecnologia, design e responsabilità.

combination ensures high quality standards and continuous improvement, supported by the dedication of every individual involved, whose skills contribute to making each product truly unique.

At the heart of all activities lies the relationship: with customers, prescriptors, installers, end users, and team members. Ercos fosters ongoing dialogue based on trust, expertise, and active listening. The goal has always been to offer solutions that are functional, aesthetically refined, and built to last.

With a solid and forward-looking vision, Ercos continues to grow, bringing comfort to both public and residential living spaces through products that combine technology, design, and responsibility.

Piatti doccia - Caratteristiche tecniche
Shower trays - Technical specifications

Materiale
Realizzati in composito di marmo, miscela di cariche minerali e resina, rivestiti da Gelcoat navale Iso-NPG
Specifiche
Piatti doccia con texture effetto pietra
Superficie antiscivolo (UNI EN 16165:2021 Annex A) di classe C
Installazione
A filo pavimento o in appoggio su massetto
Copripiletta
- **RocQ**: cover rivestita con Gelcoat in finitura del piatto doccia
- **Stone**: griglia in acciaio inox inclusa. Disponibile anche colorata e in finitura

Material
Made of marble composite, a blend of mineral fillers and resin, coated with Iso-NPG marine Gelcoat
Specifications
Shower trays with a stone-effect texture
Anti-slip surface (UNI EN 16165:2021 Annex A) C class
Installation
Flush with the floor or surface-mounted on screed
Drain Cover
- **RocQ**: cover coated with Gelcoat in the same finish as the shower tray
- **Stone**: stainless steel grid included. Also available in a coloured finish

Miscelatori
Mixers

La nostra collezione di miscelatori nasce per coniugare estetica e funzionalità in ogni ambiente. Dall'eleganza dell'acciaio inox spazzolato al classico cromo, fino al moderno nero opaco, ogni modello è pensato per offrire soluzioni versatili, resistenti e di forte impatto visivo. Un tocco moderno per il bagno o un alleato pratico per la cucina, per valorizzare ogni spazio, senza rinunciare alla qualità.

Our mixers collection is designed to seamlessly blend aesthetics and functionality in any setting. From the elegance of the brushed stainless steel to mixed classic chrome and the modern appeal of matt black, each model is designed to deliver versatile, durable, and visually impactful solutions. A modern touch to your bathroom or a practical companion for your kitchen, to enhance any space, without compromising on quality.

Cura e manutenzione del prodotto
Care and maintenance of the product

Per una corretta manutenzione del miscelatore, consigliamo di risciacquare con acqua e asciugare con un panno morbido per evitare la formazione di calcare.

For proper maintenance of the mixer, we recommend rinsing it with water and drying it with a soft cloth to prevent limescale buildup.

Aeratori
Aerators

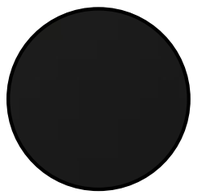

Per mantenere gli aeratori, è sufficiente smontarli ed immergerli in aceto diluito per qualche ora, per poi risciacquare con acqua e sapone neutro.

To keep aerators working efficiently, disassemble them and soak them in diluted vinegar for a few hours, then rinse with water and mild soap.

Stilox

Essenziale, moderno, armonico: Stilox nasce dall'incontro perfetto tra equilibrio estetico e funzionalità quotidiana. Le sue forme cilindriche, slanciate e ben proporzionate, dal corpo alla bocca, fino alla leva, raccontano una bellezza contemporanea che non passa inosservata.

Il dettaglio che cattura lo sguardo? La maniglia, vera firma di stile, che definisce l'identità del miscelatore sia nella versione classica che in quella alta. Le linee fluide e continue non sono solo piacevoli da vedere, ma anche da vivere: offrono un comfort d'uso superiore e rendono la pulizia semplice e veloce.

Per chi desidera soluzioni dal carattere più deciso e versatile, i miscelatori a parete Stilox rappresentano la scelta ideale. La versione a piastra unica esprime raffinatezza ed essenzialità, perfetta per ambienti bagno dal gusto minimal. Le piastre separate, invece, permettono una maggiore libertà progettuale: si adattano con eleganza allo spazio, dando forma a configurazioni su misura per stile e funzionalità.

Essential, modern, harmonious: Stilox is born from the perfect blend of aesthetic balance and everyday functionality. Its cylindrical shapes, slender and well-proportioned - from body to spout, right down to the lever - reflect a contemporary beauty that captures attention.

The detail that immediately draws the eye? The handle, a true signature of style, defines the identity of the mixer, whether in its classic or high-spout version. The flowing and continuous lines are not only pleasing to the eye but also enhance daily use, providing superior comfort and facilitating easy and quick cleaning.

For those seeking solutions with a stronger, more versatile character, the Wall mounted Stilox mixers are an ideal choice. The single-plate version conveys sophistication and minimalism, ideal for bathrooms with a minimalist flair. The separate plates, on the other hand, allow greater design flexibility: elegantly adapting to spaces and enabling customized configurations tailored in both style and function.

Viktor

Viktor è una collezione che unisce perfezione formale e funzionalità, pensata per chi cerca una soluzione elegante e completa per ogni ambiente bagno.

Realizzato in ottone cromato con una finitura lucida e resistente, Viktor esprime contemporaneità ed eleganza. La maniglia priva di scasso posteriore e la leva ergonomica offrono una presa confortevole, per un utilizzo semplice e intuitivo ogni giorno.

La forza di Viktor sta nella completezza della gamma: soluzioni per lavabo, bidet, doccia, vasca e varianti a parete, pensate per offrire coerenza stilistica in ogni punto d'acqua. Un sistema trasversale che risponde con efficacia a progetti residenziali e contract, mantenendo sempre un'identità chiara e attuale.

Viktor is a collection that combines formal perfection with functionality, designed for those seeking an elegant and comprehensive solution for every bathroom space.

Crafted from chrome-plated brass with a polished, durable finish, Viktor embodies contemporary elegance. Its handle, featuring a seamless rear design, along with an ergonomic lever, ensures a comfortable grip, making daily use simple and intuitive.

Viktor's strength lies in its complete product range: solutions for basins, bidets, showers, bathtubs, and Wall mounted options, conceived to provide consistent style at every water point. It is a versatile system effectively suited to both residential and contract projects, always maintaining a clear and contemporary identity.

Versilia

Versilia è una collezione che si distingue per il suo design moderno e la combinazione di finitura cromata lucida o nera opaca, che la rende adatta a qualsiasi tipo di ambiente bagno. Le forme stondate e le linee morbide sono pensate per soddisfare sia esigenze estetiche che funzionali, facendo di questo miscelatore una scelta versatile, apprezzata dai clienti.

Realizzato in ottone cromato, Versilia è robusto e resistente, progettato per durare nel tempo. La sua finitura protegge contro l'usura quotidiana e la corrosione, mantenendo il miscelatore sempre in perfette condizioni. Grazie alla sua ampia gamma, che include soluzioni per lavabo, bidet, doccia e vasca, Versilia offre un prodotto perfetto per ogni esigenza, adatto a diversi livelli di prezzo e tipologie di bagno.

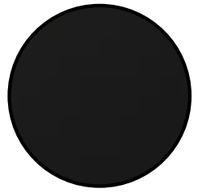

Versilia is a collection distinguished by its modern design and a combination of polished chrome or matt black finishing, making it suitable for any bathroom environment. Rounded forms and soft lines are designed to meet both aesthetic preferences and functional requirements, making this mixer a versatile choice highly appreciated by customers.

Made from chrome-plated brass, Versilia is robust and durable, designed to withstand the test of time. Its finish provides protection against daily wear and corrosion, keeping the mixer in impeccable condition. Thanks to its extensive range - including solutions for basins, bidets, showers, and bathtubs - Versilia offers the perfect product for every need, accommodating various price levels and bathroom styles.

Italia R

Italia R è un miscelatore dal design moderno e deciso, caratterizzato da linee squadrate che si adattano facilmente a diversi stili di bagno. Realizzato in ottone, è progettato per garantire solidità e durata nel tempo, perfetto per l'uso quotidiano.

La collezione Italia R è disponibile nelle finiture cromo lucido e nero opaco, offrendo un'ampia scelta per soddisfare differenti gusti estetici. Le sue linee nette e il suo design semplice si integrano facilmente in ambienti moderni e versatili.

Con la sua robustezza e l'ampia gamma di opzioni, Italia R rappresenta una scelta ideale per chi cerca qualità e stile, senza rinunciare alla praticità.

Italia R is a mixer with a modern, bold aesthetic, distinguished by its sleek, squared lines that effortlessly complement a variety of bathroom styles. Crafted from brass, it guarantees strength and durability, making it perfect for everyday use.

The Italia R collection is available in polished chrome and matte black finishing, providing a versatile selection to suit diverse tastes and interior designs. Its minimalist design and crisp, clean lines blend seamlessly into modern, adaptable spaces.

With its robust construction and extensive range of finishing, Italia R is the ideal choice for those who desire quality and style without sacrificing practicality.

MISCELATORI MIXERS

Ecostyle

La collezione Ecostyle si distingue per un design semplice e linee morbide, perfetto per adattarsi a ogni tipo di bagno. Realizzato in ottone resistente, offre affidabilità e durata, rispondendo alle esigenze quotidiane senza rinunciare allo stile. Un miscelatore semplice e funzionale, ideale per chi cerca un prodotto che unisca qualità e praticità, mantenendo un aspetto moderno e discreto.

The Ecostyle collection is characterized by its basic design and soft lines, perfect for fitting seamlessly into any bathroom style. Crafted from durable brass, it ensures reliability and longevity, meeting everyday needs without compromising on style. Simple yet functional, this mixer tap is ideal for those seeking a product that blends quality and practicality while maintaining a modern, understated look.

Cucina
Kitchen mixers

I nostri rubinetti da cucina nascono per chi desidera unire bellezza e funzionalità in un unico gesto quotidiano. Con linee pulite e materiali di alta qualità, offrono un'esperienza d'uso intuitiva, efficiente e duratura. Facili da pulire e progettati per resistere nel tempo, sono disponibili in una gamma di prodotti che spaziano dal minimal al sofisticato, adattandosi con stile a ogni ambiente. Una scelta che non è solo pratica, ma anche estetica, per trasformare la cucina in uno spazio da vivere con eleganza.

Our kitchen mixers are designed for those who seek to combine beauty and functionality in a single, everyday gesture. With clean lines and premium materials, they offer an intuitive, efficient, and long-lasting user experience. Easy to clean and built to stand the test of time, they come in a range of products, from minimalist to sophisticated, seamlessly complementing any kitchen style. A choice that's not just practical, but also refined, transforming your kitchen into a space to enjoy with elegance.

Sanitari
WCs and bidets

Nel mondo dell'arredobagno, i sanitari rivestono un ruolo fondamentale, non solo per la loro funzione pratica ma anche per l'impatto estetico che sanno offrire. La collezione di sanitari Ercos nasce per rispondere a esigenze diverse di spazio, gusto e stile, con soluzioni che combinano eleganza, resistenza e facilità di pulizia.

Le tre linee – KITE, SURF e WAVE – interpretano il concetto di benessere quotidiano in chiave contemporanea, con un'offerta completa di vasi e bidet, disponibili sia nelle versioni a terra che sospese.

Ogni collezione è realizzata in vetrochina di alta qualità e pensata per garantire durabilità e semplicità nella manutenzione.

In the world of bathroom furnishings, sanitary ware plays a key role—not only for its practical function but also for the aesthetic impact it can offer. The sanitary collection by Ercos is designed to meet a wide range of needs in terms of space, taste, and style, offering solutions that combine elegance, durability, and ease of cleaning.

The three lines – KITE, SURF, and WAVE – translate the concept of everyday comfort with a contemporary touch, offering a complete selection of toilets and bidets, available in both floor-standing and wall-hung versions.

All ranges are made of high-quality vitreous china and engineered to ensure long-lasting performance and easy maintenance.

Kite

La linea KITE si distingue per il design essenziale e versatile. Forme armoniose e compatte definiscono vasi e bidet, ideali per ambienti bagno raffinati dove praticità e minimalismo convivono con eleganza.

The KITE line stands out for its essential and versatile design. Harmonious and compact shapes define toilets and bidets, perfect for refined bathroom spaces where practicality and minimalism blend elegantly.

Surf

La collezione SURF si caratterizza per il sedile Slim termoindurente con chiusura soft-close e sgancio rapido, garantendo massimo comfort. Il design morbido e arrotondato crea un'atmosfera accogliente e moderna in ogni bagno.

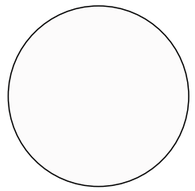

The SURF collection features a Slim thermoset seat with soft-close mechanism and quick-release function, ensuring maximum comfort. Its smooth, rounded design creates a welcoming and contemporary atmosphere in any bathroom.

Wave

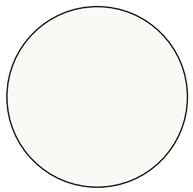

La linea WAVE presenta forme squadrate e decise per uno stile audace e contemporaneo. Il design geometrico, preciso e lineare dona personalità forte all'ambiente bagno, valorizzando spazi dal carattere distintivo.

The WAVE line showcases squared and bold shapes for an audacious, contemporary style. Its geometric, precise, and linear design adds strong personality, enhancing bathroom spaces with distinctive character.

Lavabi
Basins

La collezione di lavabi Ercos rappresenta l'incontro perfetto tra design contemporaneo e funzionalità pratica. Ogni modello, dalle forme organiche e geometriche, è pensato per adattarsi armoniosamente a qualsiasi ambiente bagno, offrendo soluzioni sia d'appoggio che sospese.

La varietà di finiture disponibili, tra cui bianco lucido, bianco opaco, nero opaco, cappuccino opaco e basalto opaco, consente una personalizzazione raffinata dello spazio.

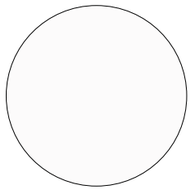

Realizzati in ceramica di alta qualità o in composito di marmo, i lavabi Ercos garantiscono durabilità e facilità di manutenzione. Per un abbinamento perfetto, sono disponibili pilette coordinate che completano l'estetica del lavabo. Questa gamma è ideale per chi desidera coniugare eleganza e praticità nell'arredo del proprio bagno.

The Ercos washbasins' collection perfectly blends contemporary design with practical functionality. Each model, featuring organic or geometric shapes, is designed to fit harmoniously into any bathroom setting, offering both countertop and Wall mounted solutions.

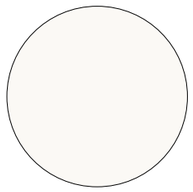

The wide range of available finishing, including glossy white, matt white, matt black, matt cappuccino, and matt basalt, allows for refined customization of the space.

Made of high-quality ceramics or marble composite, Ercos washbasins ensure durability and easy maintenance. For a flawless match, coordinated drains are available to complete the washbasin's aesthetic. This collection is ideal for those who seek to combine elegance and practicality in their bathroom design.

Vasche
Bathtubs

Le nostre vasche da bagno, disponibili nei modelli RODI, LUMINIA e SOLEA, sono progettate per offrire un'esperienza di relax totale, grazie a linee pulite e semplici che esaltano l'eleganza di ogni bagno. Realizzate con materiali resistenti e facili da pulire, queste vasche si distinguono per la loro praticità e durata nel tempo.

Ogni modello è disponibile in diverse grandezze, permettendo di adattarsi perfettamente a spazi di ogni dimensione. Che si tratti del design raffinato e senza tempo di RODI, delle linee moderne di LUMINIA o della versatilità di SOLEA, queste vasche combinano estetica e comfort per offrire un'esperienza unica e rilassante.

Our bathtubs, available in the RODI, LUMINIA and SOLEA models, are designed to offer a complete relaxation experience, with clean and simple lines that enhance the elegance of any bathroom. Made from durable and easy-to-clean materials, these bathtubs stand out for their practicality and longevity.

Each model is available in various sizes, allowing it to fit perfectly in spaces of all dimensions. Whether it's the timeless and refined design of RODI, the modern lines of LUMINIA or the versatility of SOLEA, these bathtubs combine aesthetics and comfort to provide a unique and relaxing experience.

Componibilita
Radiatore tubolare in acciaio componibile. Ogni elemento è singolarmente filettato. La tenuta idraulica è testata singolarmente, sul singolo elemento e sulla batteria completa, come previsto dalla norma EN442. Ogni elemento è unito tramite nippli, la speciale gomma siliconica, invisibile all'esterno, che garantisce una perfetta tenuta idraulica. 5 profondità, 21 altezze, lunghezze illimitate: oltre 200.000 combinazioni possibili

Caratteristiche
Teste in acciaio, spessore 1.5 mm;
Tubi in acciaio ø25 mm;
Pressione massima di esercizio: 6 bar;
Temperatura massima di esercizio: 95 °C
Lunghezza radiatore con tappi montati:
(n ° elementi x 45 mm) +24 mm
Verniciatura
Verniciatura a polveri epossidiche sul singolo elemento
Confezionamento
Imballati in scatola di cartone
N° massimo di elementi per batteria
Modelli di altezza fino a 1000 mm: max 30 elementi
Modelli di altezza superiore a 1000 mm: max 15 elementi

Modularity
Tubular steel radiator with a modular design. Each element is individually threaded. The hydraulic seal is tested individually on each element and on the complete battery, in compliance with EN442 standards. Each element is connected with nipples and a special silicone gasket, which remains invisible from the outside while ensuring a perfect hydraulic seal. With 5 depths, 21 heights, and unlimited lengths, the radiator offers over 200,000 possible combinations
Features
End caps: Steel, 1.5 mm thick
Tubes: Steel, ø25 mm
Maximum operating pressure: 6 bar
Maximum operating temperature: 95 °C
Radiator length with end caps installed:
(number of elements × 45 mm) + 24 mm
Coating
Epoxy powder paint to each individual element
Packaging
Packaged in cardboard boxes
Maximum number of elements per battery
Models up to 1000 mm in height: maximum 30 elements
Models over 1000 mm in height: maximum 15 elements

Nipplatura
Nippling process
È possibile ottenere batterie degli elementi desiderati, grazie all'operazione di nipplatura. La garanzia sulla tenuta tra gli elementi è assicurata esclusivamente con nippli e guarnizioni Ercos.
It is possible to create larger element batteries through the nippling process. The seal between elements is guaranteed exclusively when using Ercos nipples and gaskets.

Liberty
Radiatori in ghisa
Cast iron radiators

Caratteristiche
Materiale: ghisa
Pressione max d'esercizio: 6 bar
Temperatura max d'esercizio: 95°C
Verniciatura
Verniciatura di fondo protettivo ad immersione
Elementi per batteria
Per ogni batteria sono sempre inclusi elementi laterali con piedini. Per batterie di lunghezza superiore a 14 elementi verrà aggiunto un elemento con piedino nel mezzo. Si consiglia quindi di ordinare un numero dispari (es. 15,17,19 elementi) in modo che l'elemento con piedino cada nel centro della batteria.
Fornito con
4 riduzioni da 1/2", assemblato in batterie fino a max 20 el. inclusi elementi con piedini laterali. Per forniture superiori ai 20 el., rivolgersi ai propri agenti commerciali.
Da completare con valvole e adattatore alle pagine 332-333.

Features
Material: cast iron
Max working pressure: 6 bars
Max working temperature: 95°C
Coating
Protective dripping primer painting
Elements per battery
Each battery always includes side elements with feet. For batteries longer than 14 elements, an additional element with a foot will be placed in the middle. It is recommended to order an odd number of elements (e.g., 15, 17, 19) to ensure that the element with the foot is positioned at the center of the battery.
Supplied with
4 1/2" reductions. Assembled in batteries up to max 20 el. Side feet included. For supplies exceeding 20 el., please contact your sales agent.
To be completed with valves and adapter on pages 332-333.

S
Per batterie combinate (intermedi+laterali) superiori a 14 el., si aggiunge un elemento con piedino intermedio centrale; pertanto si consiglia di ordinare un numero dispari di elementi. Assemblato fino a max 20 el.
Da completare con:
- **9010**: valvolina di sfiato, tappi **SV1/2** e **ST1/2A** (pag. 339), 2 riduzioni **RL1/2D9010** destre e 2 **RL1/2S9010** sinistre, valvola d'arredo (**SKVAT5** o **SKVAT7**) e adattatore (pag. 332).
- **9900**: valvola di sfiato, tappi **SV1/2** e **ST1/2A** (pag. 339), 2 riduzioni **RZCD1/2** destre e 2 **RZCS1/2** sinistre, valvola d'arredo (**SKVAL6**) e adattatore (pag. 332).

For combined radiators (intermediate + side elements) longer than 14 elements, an additional element with a central intermediate support foot will be added; therefore, it is recommended to order an odd number of elements. Can be assembled in radiators up to a maximum of 20 elements.
To be completed with:
- **9010**: Air vent valve and plugs **SV1/2** and **ST1/2A** (page 339), 2 reductions **RL1/2D9010** right-hand and 2 **RL1/2S9010** left-hand, decorative valve (**SKVAT5** or **SKVAT7**), and adapter (page 332).
- **9900**: Air vent valve and plugs **SV1/2** and **ST1/2A** (page 339), 2 reductions **RZCD1/2** right-hand and 2 **RZCS1/2** left-hand, decorative valve (**SKVAL6**), and adapter (page 332).

Radiatori in ghisa
Cast iron radiators

Caratteristiche
Materiale: ghisa
Pressione max d'esercizio: 6 bar
Temperatura max d'esercizio: 95 °C
Verniciatura
Verniciatura a polveri epossidiche sul singolo elemento.
Solo sul RAL 9010.

Features
Material: cast iron
Max working pressure: 6 bars
Max working temperature: 95 °C
Coating
Epoxy powder coating applied to each individual element.
Available only in RAL 9010.

S

Assemblato fino a max 20 el. Da completare con:
- **9010**: valvola di sfiato, tappi **SV1/2** e **ST1/2A** (pag. 339), 2 riduzioni **RP1/2D** destre e 2 **RP1/2S** sinistre, valvola d'arredo (**SKVAT5** o **SKVAT7**) e adattatore (pag. 333).
- **9900**: valvola di sfiato, tappi **SV1/2** e **ST1/2A** (pag. 339), 2 riduzioni **RZ1/2D** destre e 2 **RZ1/2S** sinistre, valvola d'arredo (**SKVAL6**) e adattatore (pag. 333).

Can be assembled in radiators up to a maximum of 20 elements. To be completed with:
- **9010**: Air vent valve and plugs **SV1/2** and **ST1/2A** (page 339), 2 reductions **RP1/2D** right-hand and 2 **RP1/2S** left-hand, decorative valve (**SKVAT5** or **SKVAT7**), and adapter (page 333).
- **9900**: Air vent valve and plugs **SV1/2** and **ST1/2A** (page 339), 2 reductions **RZ1/2D** right-hand and 2 **RZ1/2S** left-hand, decorative valve (**SKVAL6**), and adapter (page 333).

(Es. GP E10 S 9010 04 07 0420)

W

Fornitura e montaggio in fabbrica di 4 riduzioni da 1/2" con tappo e valvola, per ogni batteria +7% rispetto al prezzo del prodotto grezzo (finitura 9900). Da completare con valvola d'arredo (**SKVAT5** o **SKVAT7**) per il 9010 o (**SKVAL6**) per il 9900 (pag. 332) e adattatore (pag. 333).
Factory supply and assembly of 4 1/2" reductions with plug and valve, for each battery +7% compared to the price of the raw product (9900 finish). To be completed with a decorative valve (**SKVAT5** or **SKVAT7**) for 9010 or (**SKVAL6**) for 9900 (page 332), and adapter (page 333).

Elettra Digitale ø22
Scaldasalviette digitali
Digital towel warmers

Funzioni
Functions

- **Modalità Comfort:** Regola la temperatura tra 7°C e 30°C per un comfort personalizzato.
- **Modalità Economy:** Limita la temperatura entro il valore impostato in Comfort, ottimizzando il risparmio energetico.
- **Modalità Antigelo:** Mantiene automaticamente 7°C per prevenire il congelamento.
- **Programmazione Weekly:** Permette di personalizzare il riscaldamento per ogni giorno della settimana.
- **Open Window:** Rileva cali di temperatura (≥5°C in 5 min) e imposta 10°C per 60-90 min per evitare sprechi.
- **Protezione Bambini:** Blocca i comandi per impedire modifiche accidentali.

- **Comfort Mode:** Adjusts the temperature between 7°C and 30°C for personalized comfort.
- **Economy Mode:** Limits the temperature within the Comfort Mode setting to optimize energy savings.
- **Anti-Freeze Mode:** Automatically maintains 7°C to prevent freezing.
- **Weekly Programming:** Allows customized heating schedules for each day of the week.
- **Open Window:** Detects sudden temperature drops (≥5°C in 5 min) and sets 10°C for 60-90 min to prevent energy waste.
- **Child Lock:** Locks controls to prevent accidental changes.

Termostato digitale programmabile
Programmable digital thermostat

- **Tasti touch:** Il prodotto è dotato di tasti touch intuitivi, che permettono di selezionare facilmente la modalità d'uso desiderata.
- **Display digitale:** Il display digitale mostra chiaramente le informazioni e le modalità desiderate.
- **Fornitura standard:** termostato montato a destra.

- **Touch buttons:** The product features intuitive touch buttons for easy selection of the desired mode.
- **Digital display:** The digital display clearly shows information and selected modes.
- **Standard supply:** Thermostat mounted on the right side.

Scaldasalviette idraulici
Hydraulic towel warmers

Caratteristiche
Tubi in acciaio
Pressione massima di esercizio: 6 bar
Temperatura massima di esercizio: 95 °C
Verniciatura
Versioni bianche e colorate: verniciatura a polveri epossidiche
Versioni cromate: processo galvanico di nichelatura e cromatura
Confezionamento
Imballati in scatola di cartone

Features
Steel tubes
Max operating pressure: 6 bar
Max operating temperature: 95°C
Coating
White and coloured versions: epoxy powder coating
Chrome-plated versions: nickel and chrome galvanic process

Packaging
Packed in a cardboard box

Monica ø25
Scaldasalviette idraulici
Hydraulic towel warmers

Caratteristiche
Tubi in acciaio **ø25 mm**
Pressione massima di esercizio: 6 bar
Temperatura massima di esercizio: 95 °C
Verniciatura
Verniciatura a polveri epossidiche
Versioni cromate: processo galvanico di nichelatura e cromatura
Confezionamento
Imballati in scatola di cartone
Fornitura
Fornito con attacchi da 1/2", valvola di sfiato e kit di fissaggio in finitura.
Da completare con:

- **9010**: valvola d'arredo (**SKVAT5** o **SKVAT7**) e adattatore a pagina 333
- **9300** e **colorati**: valvola d'arredo (**SKVAL6**) e adattatore a pagina 333
- **4900**: valvola d'arredo (**SKVAL64900**) e adattatore a pagina 333

Features
Steel tubes **ø25 mm**
Max operating pressure: 6 bar
Max operating temperature: 95 °C
Coating
Epoxy powder coating
Chrome-plated versions: nickel and chrome galvanic process
Packaging
Packed in a cardboard box
Supply
Supplied with 1/2" fittings, air vent valve, and mounting kit in matchinge finish.
To be completed with:

- **9010**: decorative valve (**SKVAT5** or **SKVAT7**) and adapter on page 333
- **9300** and **coloured versions**: decorative valve (**SKVAL6**) and adapter on page 333
- **4900**: decorative valve (**SKVAL64900**) and adapter on page 333

Opera ø22
Scaldasalviette idraulici
Hydraulic towel warmers

Caratteristiche
Tubi in acciaio **ø22 mm**
Pressione massima di esercizio: 6 bar
Temperatura massima di esercizio: 95 °C
Verniciatura
Verniciatura a polveri epossidiche
Versioni cromate: processo galvanico di nichelatura e cromatura
Confezionamento
Imballati in scatola di cartone
Fornitura
Fornito con attacchi da 1/2", valvola di sfiato e kit di fissaggio in finitura.
La versione **4900** comprende anche kit valvola e detentore con attacco da 1/2" in finitura e coppia di raccordi per tubo multistrato ø16 mm.
Da completare con:

- **9010**: valvola d'arredo (**SKVAT5** o **SKVAT7**) e adattatore a pagina 333
- **9300** e **colorati**: valvola d'arredo (**SKVAL6**) e adattatore a pagina 333

Features
Steel tubes **ø22 mm**
Max operating pressure: 6 bar
Max operating temperature: 95 °C
Coating
Epoxy powder coating
Chrome-plated versions: nickel and chrome galvanic process
Packaging
Packed in a cardboard box
Supply
Supplied with 1/2" fittings, air vent valve, and mounting kit in matchinge finish.
Version **4900** also includes a valve and lockshield kit with a 1/2" connection in matchinge finish and a pair of fittings for ø16 mm multilayer pipe.
To be completed with:

- **9010**: decorative valve (**SKVAT5** or **SKVAT7**) and adapter on page 333
- **9300** and **coloured versions**: decorative valve (**SKVAL6**) and adapter on page 333

Valvole d’arredo per radiatori e scaldasalviette
Radiators and towel warmers valves

Valvole termostatiche
Thermostatic valves

Descrizione Description	Codice Code	€
Kit con valvola e detentore a squadra da 1/2” x 3/4” Eurocono con testa termostatica bianca Set with Euroconus 1/2” x 3/4” angled valve and lockshield with white thermostatic head	**SK VAT5**	56,62
Kit con valvola e detentore a squadra da 3/8” x 3/4” Eurocono con testa termostatica bianca Set with Euroconus 3/8 “x 3/4” angled valve and lockshield with white thermostatic head	**SK VAT7**	50,57

Valvole termostatizzabili
Thermostatic valves

Descrizione Description	Codice Code	€
Testa termostatica bianca White thermostatic head	**SK TTS7**	14,94
Kit cromato valvola e detentore termostatizzabile attacco da 1/2” x 3/4”Eurocono Chrome-plated valve and Euroconus thermostatic 1/2”or 3/4” lockshield set	**SK VAL6**	41,68
Testa termostatica in ABS cromato per SKVAL6 Thermostatic head in chromed ABS for SKVAL6	**SK TTS6**	20,51
Kit nero opaco valvola e detentore termostatizzabile, attacco da 1/2” x 3/4” Eurocono Matt black valve and Euroconus thermostatic 1/2”or 3/4” lockshield set	**SK VAL6 4900**	44,35
Testa termostatica in ABS nero opaco **per SKVAL64900** Thermostatic head in Matt black ABS for SKVAL64900	**SK TTS6 4900**	20,17

Copritubo
Pipe covering

Descrizione Description	Codice Code	€
Set copritubo cromato 70 mm con flangia* 70 mm chrome-plated pipe cover set with flange*	**SK CTBC 0070**	19,28
Set copritubo bianco 70 mm con flangia* 70 mm white pipe cover set with flange*	**SK CTBB 0070**	18,21
Set copritubo nero opaco 70 mm con flangia* 70 mm Matt black pipe cover set with flange*	**SK CTBK 0070**	20,35

*Solo per tubi multistrato fino a 16mm e profondità massima 110 mm
Only for until 16mm multilayer pipes, with 110 mm maximum depth

Adattatori per radiatori e scaldasalviette
Radiators and towel warmers adapters

Adattatori cromati (per valvole SKVAL6)
Chrome-plated adapters (for SKVAL6)

Descrizione Description	Codice Code	€ al pz. € for pcs
Adattatore cromato, attacco 3/4” eurocono, per tubo rame - **ordinare minimo 2 pezzi o multipli di 2** Chrome-plated adapter, 3/4” euroconus connection, for copper pipe - **batches are multiples of 2**		
Ø 12 mm	**SAR 12R**	4,97
Ø 14 mm	**SAR 14R**	4,11
Ø 16 mm	**SAR 16R**	4,11
Adattatore cromato, attacco 3/4” eurocono, per tubo multistrato - **ordinare minimo 2 pezzi o multipli** Chrome-plated adapter, 3/4” euroconus connection, for multilayer pipe - **batches are multiples of 2**		
Ø 14 x 2 mm	**SAR 14M**	5,83
Ø 16 x 2 mm	**SAR 16M**	7,21
Ø 20 x 2 mm	**SAR 20M**	7,98

Adattatori nichelati (per valvole SKVAT5, SKVAT7)
Nickel-plated adapters (for SKVAT5, SKVAT7 valves)

Descrizione Description	Codice Code	€ al pz. € for pcs
Adattatore nichelato, attacco 3/4” eurocono, per tubo rame - **ordinare minimo 2 pezzi o multipli di 2** Adapter, 3/4” euroconus connection, for copper pipe - **batches are multiples of 2**		
Ø 10 mm	**SAN 10C**	5,60
Ø 12 mm	**SAN 12C**	6,26
Ø 14 mm	**SAN 14C**	5,85

Linea made in Italy
Made in Italy line

I sedili della linea “Made in Italy” sono il nostro prodotto dai più alti standard di qualità e costituiscono una valida soluzione per la sostituzione di sedili originali. La gamma “Made in Italy” è disponibile per le serie ceramiche, anche storiche, più diffuse; il nostro archivio di stampi consente la fornitura anche di modelli non più disponibili sul mercato.

The “Made in Italy” seats are our highest quality products, a suitable solution for replacing original seats. The “Made in Italy” range is available for the most popular historical ceramic series; our mould archive ensures the supply of models no longer available on the market.

Viti e perni di fissaggio in metallo zincato garantiti contro la ruggine
Galvanised metal screws and fixing pins guaranteed against rust

Superfici brillanti anti-ingiallimento
Shiny anti-yellowing surfaces

Superficie liscia a garanzia di massima igiene
Smooth surface that guarantees maximum hygiene

Versione con cerniera singola
Version with single hinge

Cerniera singola in lega cromata, fissaggio con vite in testa per un’installazione semplice e veloce
Chromed alloy single hinge, head screw fixing for quick and easy installation

Sedile in MDF con rivestimento in fibra vetrosa (SMC) e paracolpi in polietilene con perni
MDF seat with fiberglass (SMC) coat and polyethylene bumpers with pins

Versione con cerniera americana
Version with american hinge

Cerniera in lega cromata con tubetto e piede fisso per ancoraggio perfetto al vaso
Alloy chromed hinge with tube and fixed hinge for perfect anchoring to the wc

Sedile in MDF con rivestimento in fibra vetrosa (SMC) o in poliestere e paracolpi in polietilene con perni
MDF seat with fiberglass (SMC) or polyester coat and polyethylene bumpers with pins

Seats - General specifications

Linea termoindurente
Thermoset line

I sedili della linea Termoindurente sono un prodotto resistente, igienico e durevole. Grazie alla loro composizione in resine termoindurenti si caratterizzano per una superficie liscia, dura e non porosa, fornendo garanzia di elevata igiene impedendo l'assorbimento di umidità e batteri. Disponibili in varie forme e dimensioni, garantiscono una valida compatibilità con i diversi modelli di serie ceramiche presenti sul mercato.

The seats from the Thermosetting line are a durable, hygienic, and long-lasting product. Thanks to their composition of thermosetting resins, they feature a smooth, hard, and non-porous surface, ensuring a high level of hygiene by preventing the absorption of moisture and bacteria. Available in various shapes and sizes, they offer reliable compatibility with the different ceramic series models available on the market

- Cerniera in acciaio inox
  Stainless steel hinge
- Sedile in termoindurente e paracolpi in polietilene
  Seat in thermosetting material and polyethylene bumpers
- Sistema di installazione semplice grazie al fissaggio in acciaio o in plastica
  Simple installation system thanks to steel or plastic fixing
- Inattaccabile da agenti chimici
  Chemical agents resistant
- Superfici brillanti anti-ingiallimento
  Shiny anti-yellowing surfaces

Linea laccato
Lacquered line

Caratterizzata da un'estetica raffinata e prestazioni durevoli la Linea "Laccato" è realizzata in MDF di alta qualità e rifinita con una verniciatura laccata multistrato. Una pregiata superficie liscia e lucida, un'estrema facilità di pulizia e resistenza all'umidità, cerniere e fissaggi di alta qualità fanno di questa gamma un prodotto di stile e funzionalità compatibile con i principali modelli di serie ceramiche di marca.

Characterized by refined aesthetics and long-lasting performance, the "Lacquered" line is made from high-quality MDF and finished with a multi-layer lacquer coating. A premium smooth and glossy surface, exceptional ease of cleaning, moisture resistance, and high-quality hinges and fittings make this range a stylish and functional product compatible with the main branded ceramic series models.

- Cerniera singola in lega cromata con fissaggio con vite in testa per un'installazione semplice e veloce
  Chromed alloy single hinge with head screw fixing for quick and easy installation
- Sedile in MDF laccato e paracolpi in polietilene
  Lacquered MDF seat and polyethylene bumpers
- Superfici brillanti anti-ingiallimento
  Shiny anti-yellowing surfaces

Come scegliere il tuo sedile
How to choose your seat

Colori
Colours

Tutti i sedili sono forniti di serie nel colore Bianco Europeo senza necessità di aggiungere suffissi al codice prodotto. Per richiedere sedili in colori diversi, è necessario sostituire il codice generico 0000 con quello del colore desiderato, se disponibile per il modello selezionato.

All seats are supplied as standard in European White without the need to add any suffix to the product code. To request seats in different colours, replace the generic code 0000 with the code of the desired colour, if available for the selected model.

CODICI PERSONALIZZATI
CUSTOM CODES

BS FOR A AS07 0000

0001 - Bianco Ideal Standard
0006 - Champagne
0018 - Visone
0019 - Whisky

0001 - White Ideal Standard
0006 - Champagne
0018 - Visone
0019 - Whisky

COMPOSIZIONE DEL CODICE COLORE
COLOUR CODE COMPOSITION

Per ordinare un sedile colorato, sostituisci il codice generico 0000 con il codice colore desiderato, se disponibile per il modello scelto.

Esempio:
BS FOR A AS07 **0006**
(Champagne)

Consulta la tabella della serie ceramica interessata per verificare le varianti colore disponibili.

To order a coloured seat, replace the generic code 0000 with the desired colour code, if available for the selected model.

Example:
BS FOR A AS07 **0006**
(Champagne)

Check the table of the relevant ceramic series to see available options.

Condizioni di fornitura

General terms of trade

Torna all'indice
Back to index

L'invio di un ordine a ERCOS S.p.A. ("ERCOS") implica l'accettazione delle qui sotto elencate condizioni generali di fornitura (le "Condizioni di Fornitura"). Le presenti Condizioni di Fornitura unitamente all'ordine confermato da ERCOS costituiscono l'accordo (l'"Accordo") tra ERCOS ed il cliente relativo alla fornitura oggetto dell'ordine.

1. Ordini

Tutti i prodotti oggetto degli ordini verranno forniti secondo le Condizioni di Fornitura qui indicate, salvo diverso accordo scritto in deroga delle medesime.

2. Modifiche e annullamento degli ordini

A seguito della conferma dell'ordine, non potranno essere accettate modifiche, annullamenti, aggiunte sull'ordine o richieste di particolari lavorazioni o personalizzazioni, salvo preventivo accordo scritto da parte di ERCOS ed esplicita accettazione scritta da parte del cliente delle eventuali maggiorazioni di costo o delle ulteriori spese sostenute a causa di dette variazioni che verranno, di conseguenza, addebitate.

3. Prezzi e sconti

Salvo diverso accordo scritto, le forniture verranno effettuate Franco Fabbrica, conseguentemente i prezzi sono da considerarsi con trasporto, costi di assicurazione e IVA esclusi. Eventuali accordi, intervenuti con terzi, seppur agenti di ERCOS, relativi a prezzi e sconti al listino di ERCOS non sono vincolanti per ERCOS, salvo espressa accettazione scritta da parte di questa. Il corrispettivo per la fornitura dei prodotti sarà indicato nell'ordine, e sarà conforme al listino prezzi in vigore al momento di emissione dell'ordine, fatti salvi sconti applicabili. Listini, preventivi, offerte e prezzi, potranno subire in qualsiasi momento variazioni ad insindacabile discrezione di ERCOS. Agli ordini emessi successivamente alla intervenuta variazione si applicheranno tali nuove condizioni.

4. Trasporto e Logistica

a. Aspetti inerenti la gestione logistica

ERCOS si riserva il diritto ad evadere gli ordini anche in più consegne parziali. Qualora il cliente desideri evitare dette consegne parziali dovrà specificarlo chiaramente nell'ordine. ERCOS è esonerata da ogni responsabilità per la mancata o ritardata consegna imputabile all'errata scelta del giorno o dell'orario di consegna al destinatario o all'utilizzo di un mezzo di trasporto non adeguato alle necessità del destinatario, qualora le particolari modalità di consegna inerenti giorni e orari di ricevimento e scarico merce, o mezzo di trasporto specifico da utilizzarsi (ad esempio: motrice, sponda idraulica, camion centinato, ecc.) non siano state esplicitamente richieste nell'ordine. In mancanza di tali indicazioni, infatti, ERCOS è autorizzata alla spedizione secondo le modalità e con i mezzi che riterrà opportuni e le eventuali spese dovute alla mancata consegna verranno addebitate al cliente.

b. Responsabilità inerenti la spedizione

La spedizione e le responsabilità connesse sono regolamentate secondo gli incoterms indicati nelle conferme d'ordine. Al ricevimento della merce, il destinatario deve verificare che l'imballo sia intatto, che la merce non sia danneggiata o difettosa e che non vi sia merce mancante o difforme da quanto ordinato. Ogni eventuale reclamo relativo agli imballi, a danni o difetti, ad ammanchi od a qualunque altra contestazione relativa alla merce ricevuta va immediatamente segnalata al trasportatore firmando con riserva il documento di trasporto. La riserva va poi confermata a ERCOS a mezzo lettera raccomandata o posta elettronica a servizioclienti@ercos.it, entro 8 giorni dal ricevimento della merce. ERCOS si riserva di accettare o respingere a propria discrezione eventuali reclami trasmessi con ritardo. Su richiesta e a spese del destinatario, la merce spedita può comunque essere assicurata contro i rischi del trasporto.

5. Condizioni di pagamento

I termini di pagamento pattuiti tra ERCOS e il cliente ed indicati nell'ordine confermato da ERCOS decorrono dalla data di emissione della fattura, sono tassativi e devono essere rispettati in ogni caso, salvo diverso accordo scritto. Il cliente non potrà sospendere o ritardare i pagamenti in conseguenza di ritardi nelle consegne, contestazioni o reclami di qualunque genere che non siano espressamente accettati per iscritto da ERCOS. Il cliente non potrà opporre in compensazione a ERCOS eventuali crediti vantati nei confronti della medesima.

Le spese bancarie relative a mancati o ritardati pagamenti saranno interamente a carico del cliente, mentre gli interessi moratori, verranno addebitati al tasso di cui all'articolo 5 del D.lgs. 231/02, salvo risarcimento dell'eventuale maggiore danno e fermo restando il diritto di ERCOS a rivalersi per gli importi ad essa dovuti. Le commissioni bancarie ed ogni altra spesa relative alla forma di pagamento prescelta sono a carico del cliente. Qualunque irregolarità nei pagamenti comporta l'immediata sospensione della fabbricazione della merce ordinata, nonché delle spedizioni in corso.

ERCOS avrà facoltà, ai sensi dell'articolo 1460 del Codice civile, di rifiutare o sospendere le forniture in caso di: (i) mora del cliente per qualsiasi importo a suo debito; ovvero (ii) qualora la situazione patrimoniale o finanziaria del cliente peggiorasse successivamente alla conclusione del Accordo; ovvero (iii) nel caso in cui siano diminuite le garanzie patrimoniali del cliente o il cliente venga assoggettato a procedure concorsuali. Il mancato pagamento da parte del cliente anche di una sola parte del corrispettivo alla scadenza pattuita, comporterà l'automatica decadenza di quest'ultimo dal beneficio del termine per gli importi dovuti non ancora scaduti, con conseguente obbligo al pagamento immediato dell'intero capitale, oltre a interessi e spese. Non si riconoscono pagamenti fatti ad agenti se non muniti di autorizzazione scritta da parte di ERCOS, che autorizza l'agente ad incassare per conto di ERCOS.

6. Contestazioni e Reclami

Qualunque contestazione o reclamo relativi a vizi o difetti della merce ovvero a danni subiti dovranno essere comunicati entro 8 giorni dal ricevimento della merce, ovvero, nel solo caso di vizi occulti, entro 8 giorni dal momento del palesamento del vizio o difetto, fermo restando che ERCOS non sarà responsabile e non risponderà di vizi o difetti nel caso in cui la merce sia stata alterata o manomessa da terzi non autorizzati da ERCOS. Ogni reclamo o contestazione dovrà essere trasmesso mediante lettera raccomandata a ERCOS, Via San Faustino, 35, 25040 Monticelli Brusati (BS), Italia o a mezzo e-mail all'indirizzo servizioclienti@ercos.it.

7. Resi

Fatta eccezione per un rientro della merce dovuto a un difetto o vizio riconosciuto espressamente e per iscritto da ERCOS, nessun reso o ritorno di merce potrà essere ad alcun titolo accettato se non preventivamente concordato per iscritto con ERCOS, a seguito dell'apertura della relativa pratica da parte di ERCOS. Per ogni apertura di pratica ERCOS applicherà una franchigia fissa di € 15,00 (I.V.A. esclusa) a copertura delle spese di gestione pratica e l'addebito delle spese di consegna e rientro del materiale. Non si accettano resi (o annullamento ordini) per prodotti fuori catalogo o speciali, fatto salvo accordo preventivo con il servizio clienti di ERCOS.

I prodotti non potranno essere, in ogni caso, resi se non sono in perfette condizioni per la vendita e nell'imballo originale.

8. Imballaggio

Fatto salvo quanto previsto nei successivi paragrafi del presente articolo 8, l'imballaggio dei singoli prodotti è compreso nel prezzo di vendita così come il successivo carico della merce su bancale.

Eventuali imballaggi speciali o personalizzazioni sono possibili con addebito al cliente.

L'imballaggio dei radiatori non sarà compreso nel prezzo di vendita e sarà addebitato separatamente al cliente.

9. Specificazioni e disegni tecnici

I disegni e le altre specifiche tecniche o dati tecnici contenuti nei cataloghi o in altri supporti informativi pubblicati da ERCOS sono indicativi, non sono vincolanti per ERCOS che , per ragioni industriali ed in funzione di un continuo sviluppo dei prodotti, si riserva di apportare modifiche a dette specifiche e disegni in qualunque momento, anche senza preavviso. Le uniche specifiche tecniche vincolanti tra il cliente ed ERCOS sono quelle espressamente accettate per iscritto da ERCOS nella conferma d'ordine. Allo stesso modo, eventuali campioni di prodotto messi a disposizione del cliente non possono rappresentare un vincolo per ERCOS. Le specifiche tecniche o dati tecnici, i disegni, i capitolati, i campioni, i modelli, le attrezzature e i documenti che eventualmente ERCOS avrà comunicato per qualsiasi ragione all'acquirente o che sono comunque contenuti nel listino o in altri supporti informativi comunicati da ERCOS resteranno di proprietà di ERCOS. Il cliente si obbliga a tenerli riservati e potrà utilizzarli al solo fine di valutare se procedere o meno all'acquisto. Ogni altro uso è espressamente escluso.

10. Garanzie

ERCOS dichiara e garantisce che i prodotti dalla medesima fabbricati e commercializzati sono stati costruiti nel pieno rispetto delle normative nazionali ed internazionali regolanti la loro produzione e commercializzazione e dichiara e garantisce che saranno privi di vizi di fabbricazione.

Tutti i prodotti di ERCOS sono garantiti per un periodo di due anni dalla data di consegna.

Eventuali costi di smontaggio e rimontaggio (manodopera e materiale non di ERCOS) verranno riconosciuti solo nel caso in cui il prodotto sia riconosciuto con vizio di fabbricazione difettoso e non riparabile da ERCOS e il vizio o difetto non fosse visibile nel momento dell'installazione e non fosse evidenziabile testando il prodotto prima dell'installazione definitiva.

Ogni prodotto che entro il periodo di due anni dalla data di consegna palesi vizi di materiali o di fabbricazione, espressamente riconosciuti come tali da ERCOS, potrà essere riparato o sostituito a titolo gratuito e franco destino a condizione che:

- il cliente esibisca una prova d'acquisto;
- detti vizi vengano tempestivamente e nel dettaglio comunicati per iscritto a ERCOS e riconosciuti per iscritto come tali da ERCOS;
- nessun intervento sia stato effettuato da parte del cliente o di terzi sulla merce difettosa senza il preventivo consenso da parte di ERCOS.

Eventuali interventi di regolazione e/o taratura dei sistemi radianti non sono compresi nella copertura della qui prevista garanzia.

La merce sostituita resterà di proprietà di ERCOS. Eventuali sostituzioni o riparazioni avverranno nei limiti di tempo compatibili con le esigenze organizzative del personale organizzato e competente di ERCOS, la quale in ogni caso si impegna ad effettuarle nel più breve tempo possibile.

Tali interventi effettuati in garanzia non daranno comunque luogo al prolungamento o al rinnovo della stessa.

La garanzia decade per vizi o difetti derivanti da cause non imputabili a ERCOS, quali, a titolo esemplificativo, custodia insufficiente dei prodotti, manipolazione o ogni altra modifica o errato utilizzo non consentiti da ERCOS. In ogni caso, la garanzia decade immediatamente nei seguenti casi:

a. Per i radiatori e gli scalda salviette:

se l'impianto è stato periodicamente e prolungatamente svuotato;

- installazione in impianti con funzionamento a vapore;
- installazione in impianti a vaso di espansione aperto o comunque non ermeticamente chiusi;
- aggiunta di additivi chimici nell'acqua dell'impianto di riscaldamento;
- presenza di gas, sedimentazioni di fango, residui di metallo o grasso nell'impianto;
- interventi o riparazioni per difetti o vizi eseguiti senza l'autorizzazione scritta di ERCOS, che in questo caso è libera anche da ogni pretesa, del cliente o di terzi, in relazione a richieste di risarcimento danni e rimborsi e altre spese o indennizzi connessi con l'intervento stesso;
- gli accessori, le parti di ricambio e, in special modo, i nippli e le guarnizioni utilizzate non siano originali di ERCOS;
- i radiatori non siano stati conservati e immagazzinati in buone condizioni e al riparo dalle intemperie prima di essere installati in cantiere;
- l'installazione non sia stata realizzata a regola d'arte e conformemente alle norme e agli usi del settore;
- l'acqua utilizzata per la realizzazione dell'impianto di riscaldamento sia corrosiva e presenti gradi di durezza non compresi nella norma;
- i radiatori siano stati installati in impianti con una pressione di esercizio superiore a quella massima garantita e indicata a catalogo;
- i radiatori siano stati installati in impianti con una temperatura di esercizio superiore a quella massima garantita e indicata a catalogo;
- i radiatori siano stati riverniciati ad una temperatura superiore a 100°C.

b. Per i prodotti bagno e sanitari:

- se l'eventuale deterioramento della cromatura è dovuto all'uso di detersivi acidi abrasivi;
- l'installazione non sia stata realizzata a regola d'arte e conformemente alle norme e agli usi del settore, nonché alle istruzioni di montaggio fornite da ERCOS in dotazione con ogni prodotto.

c. Per sistemi radianti:

- qualora la posa, il collaudo ed il primo avviamento dell'impianto radiante non siano stati realizzati e documentati secondo la Norma UNI EN 1264-4;
- per mancata osservazione delle prescrizioni di sicurezza (mancanza termostato di sicurezza, pressione dell'acqua in impianto troppo elevata), uso incauto o improprio del sistema radiante (temperature impianto radiante troppo elevate);
- se si riscontra antigelo nell'acqua dell'impianto termico;
- se l'acqua dell'impianto termico non è stata condizionata con opportuno trattamento chimico "antialga";
- per funzionalità carente o non conforme dovuta al mancato utilizzo dei materiali secondo lo sviluppo del disegno esecutivo Open floor;
- per utilizzo nei sistemi radianti di alcuni componenti non forniti da ERCOS, che risultino non conformi alla destinazione d'uso;
- per riparazioni improprie non autorizzate da ERCOS.

La decadenza della garanzia implica che ERCOS non potrà essere ritenuta responsabile di alcun danno o richiesta di rimborso o risarcimento derivanti da vizi o difetti dovuti all'errata installazione, manipolazione o manomissione come sopra indicato. Nel limite di quanto consentito dalla legge, le parti escludono espressamente ogni altro tipo di garanzia, ivi compresa la garanzia per vizi prevista dagli articoli 1490 e ss. del Codice civile, nei limiti previsti dal comma secondo dell'articolo 1490 Codice civile. La garanzia prevista nel presente articolo 10 è l'unica garanzia espressamente fornita da ERCOS in relazione ai prodotti venduti.

11. Responsabilità civile prodotti

Eventuali danni a terzi provocati da prodotti difettosi e conseguenti alla responsabilità da prodotto, sono coperti da polizza assicurativa specifica e verranno, quindi, gestiti secondo i tempi previsti dalla polizza stessa.

12. Foro competente

In caso di controversia derivante dai rapporti di fornitura disciplinati dalle presenti condizioni generali, sarà competente in via esclusiva l'autorità giudiziaria del Foro di Brescia con espressa e concorde esclusione di qualsiasi altro foro eventualmente concorrente o alternativo.

13. Diritto Applicabile

Tutti i contratti conclusi con ERCOS sono soggetti al diritto italiano. Le parti escludono espressamente l'applicazione delle disposizioni della Convenzione di Vienna sulla vendita internazionale di beni mobili dell'11 aprile 1980, ratificata con legge 11 dicembre 1985, n.765.

14. Traduzioni

Per quanto concerne le traduzioni di queste condizioni generali in una lingua diversa dall'italiano, qualora vi sia disaccordo o incertezza sul significato o sull'interpretazione di una o più di queste disposizioni tradotte prevale la versione italiana.

15. Conclusione contratto

La conclusione dell'Accordo avverrà dopo la sottoscrizione delle presenti condizioni generali da parte del cliente e a seguito dell'accettazione in forma scritta da parte di ERCOS dell'ordine mediante conferma d'ordine, ovvero dal momento in cui sia dato inizio all'esecuzione da parte di ERCOS, valendo la stessa quale conferma d'ordine implicita.

16. Trattamento dei dati

Le Parti si impegnano, ciascuna per il proprio, a rispettare le norme in tema di Data Protection (Reg. UE 679/2016 e D.lgs. 30 giugno 2003 n. 196 e ss.mm).

Per informazioni circa i trattamenti di dati personali effettuati dal fornitore, si rimanda all'informativa privacy presente sul sito www.ercos.it.

Sending an order with ERCOS S.p.A. (“ERCOS”) implies acceptance of the general supply conditions (the “Supply Conditions”) listed below. These Supply Conditions together with the order confirmed by ERCOS constitute the agreement (the “Agreement”) between ERCOS and the customer relating to the supply which is the object of the order.

1.Orders

All products ordered will be supplied according to the Supply Conditions indicated in this agreement, unless otherwise agreed in writing, in derogation of the same.

2. Changes and cancellation of orders

Following the order confirmation, modifications, cancellations, additions to the order, or requests for particular processes or customizations cannot be accepted unless previously agreed in writing by ERCOS and explicit written acceptance by the customer of any cost increases or additional expenses incurred due to said changes that will be charged accordingly.

3. Prices and discounts

Unless otherwise agreed in writing, supplies will be made price factory, consequently prices are to be considered with transport, insurance costs and VAT. Any agreements made with third parties, albeit agents of ERCOS, relating to prices and discounts on the ERCOS’s price list are not binding for ERCOS, unless expressly accepted in writing by the latter. The payment for the supply of the products will be indicated in the order and will be in accordance with the price list in effect at the time the order is issued, subject to any applicable discounts. Price lists, estimates, offers and prices may undergo changes at any time at the unquestionable discretion of ERCOS. These new conditions will apply to orders placed after the change.

4. Transport and Logistics

a. Aspects related to logistics management

ERCOS reserves the right to fulfill orders even in several partial deliveries. If the customer wishes to avoid such partial deliveries, he must clearly specify it in the order. ERCOS is exempt from any liability for failed or delayed delivery due to the incorrect choice of the day or time of delivery to the recipient or to the use of a means of transport that is not suitable for the recipient’s needs, if the particular delivery methods days and hours of receipt and unloading of goods with a specific mean of transport (for example: tractor, tail lift, tilt truck, etc.) have not been explicitly requested in the order. In the absence of such indications, ERCOS is in fact authorized to ship according to the methods and with the means it deems appropriate and any costs due to non-delivery will be charged to the customer.

b. Shipping Responsibilities

Shipping and related responsibilities are regulated according to the incoterms indicated in the order confirmations.

Upon receipt of the goods, the recipient must check that the packaging is intact, that the goods are not damaged or defective and that there are no goods missing or different

from those ordered. Any complaint relating to the packaging, damage or defects, shortages or any other dispute relating to the goods received must be immediately reported to the carrier by signing the transport document with reserve. The reserve must then be confirmed to ERCOS by registered letter or e-mail to servizioclienti@ercos.it, within 8 days of receipt of the goods.

ERCOS reserves the right to accept or reject any claim sent late at its own discretion. At the request and expense of the consignee, the shipped goods can in any case be insured against transport risks.

5. Terms of payment

The payment conditions agreed between ERCOS and the customer and indicated in the order confirmed by ERCOS start from the invoice issue date, are mandatory and must be complied with in any case, unless otherwise agreed in writing. The customer may not suspend or delay payments because of delays in deliveries, disputes or complaints of any kind, that are not expressly accepted in writing by ERCOS. The customer may not oppose in compensation against ERCOS any credits claimed against the latter.

Bank charges relating to missed or delayed payments will be entirely borne by the customer, while default interest will be charged at the rate set forth in art. 5 Legislative Decree 231/02, subject to compensation for any greater damage and without prejudice to the right of ERCOS to claim compensation for the amounts due to it. Bank commissions and any other expenses relating to the chosen form of payment are charged to the customer. Any irregularity in the payments involves the immediate suspension of the production of the ordered goods, as well as of the shipments in progress. ERCOS will have the right, pursuant to art. 1460 of the Civil Code, to refuse or suspend supplies in the event of: (i) default by the buyer for any amount owed to him; or (ii) if patrimonial or financial situation of customer worsens after the conclusion of the Agreement; or (iii) in the event that customer’s patrimonial guarantees have decreased or the customer is subject to bankruptcy proceedings. Failure by the customer to pay even a single part of the consideration on the agreed due date will result in the latter’s automatic forfeiture of the benefit of the term for the amounts due not yet due, with the consequent obligation to pay immediately the entire capital plus interest and expenses. Payments made to agents are not recognized unless provided with written authorization from ERCOS, which authorizes the agent to collect on behalf of ERCOS.

6. Disputes and Claims

Any dispute or complaint relating to defects or faults in the goods or relating suffered damages must be communicated within 8 days of receipt of the goods, or, in the case of hidden defects only, within 8 days of the moment of disclosure of the defect or fault, it being understood that ERCOS will not be responsible and will not be liable for faults or defects in the event that the goods have been altered or tampered with by third parties not authorised by ERCOS. Any complaint or objection must be sent by registered letter to ERCOS, Via San Faustino, 35, 25040 Monticelli Brusati (BS), Italy or by e-mail to servizioclienti@ercos.it.

7. Returns

Except for a return of goods due to a defect or fault expressly recognised in writing by ERCOS, no return or refund of goods may be accepted for any reason unless previously agreed in writing with ERCOS, following the opening of the relevant case by ERCOS. For each opening, ERCOS will apply a fixed deductible of € 15.00 (excluded VAT) to cover the costs of case management and the charge of delivery and return costs of managing the procedure and the charging of the costs of delivery and return of the material. We do not accept returns (or cancellation of orders) for non-catalogue or special products, subject to prior agreement with ERCOS customer service. In any case, the products cannot be returned unless they are in perfect condition for sale and in the original packaging.

8. Packing

Without prejudice to the provisions of the following paragraphs of this Article 8, the packaging of individual products is included in the sales price as is the subsequent loading of the goods onto the pallet. Any special packaging or customizations are possible against a charge to the customer. The packaging of the radiators will not be included in the sale price and will be charged separately to the customer.

9. Technical specifications and drawings

ERCOS declares and guarantees that the products manufactured and marketed by them have been constructed in full compliance with national and international regulations covering their production and marketing and declares and guarantees that the products will be free from manufacturing defects.

All ERCOS products are guaranteed for a period of two years from the delivery date.

Any disassembly and reassembly costs (labour and non-Ercos material) will only be recognised in the event that the product is recognized as having a manufacturing defect that is defective and cannot be repaired by ERCOS and the defect or fault is not visible at the time of installation and could not be detected by testing the product prior to final installation.

Any product that within two years from the date of delivery shows obvious defects in materials or workmanship, expressly recognized as such by ERCOS, can be repaired or replaced free of charge and delivered free of charge provided that:

- the customer provides proof of purchase;
- these defects are promptly and in detail communicated in writing to ERCOS and recognized as such by ERCOS and recognized in writing as such by ERCOS;
- no intervention has been carried out by the customer or third parties on the defective goods without the prior consent of ERCOS;
- any adjustments and/or calibrations of the radiant systems are not included in the guarantee coverage;
- the replaced goods will remain the property of ERCOS. Any replacements or repairs will take place within the time limits compatible with the organisational needs of ERCOS staff, which in any case undertakes to carry them out as quickly as possible. However, these repairs carried out under guarantee will not lead to its extension or renewal.

The guarantee is void for defects or faults resulting from causes not attributable to ERCOS, such as, for example, insufficient storage of the products, tampering or any other modification or misuse not permitted by ERCOS and in any case the guarantee expires immediately in the following cases:

a. For radiators and towel warmers:

- the system has been periodically emptied for long periods;
- installation in steam-operated systems;
- installation in open or non-hermetically sealed expansion tank systems;
- addition of chemical additives in the water of the heating system;
- presence of gas, sludge sediment, metal or grease residues in the system;
- interventions or repairs for defects that are performed without the written authorisation of ERCOS, which in this case is also free from any claim by the customer or third parties in relation to claims for damages and reimbursements and other expenses or compensation in connection with the intervention;
- the accessories, spare parts and especially the nipples and gaskets used are not original ERCOS parts;
- the radiators have not been kept and stored in good condition and protected from the elements before being installed on site;
- installation has not been carried out in a workmanlike manner and in accordance with the standards and customs of the sector;
- the water used for the construction of the heating system is corrosive and has degrees of hardness not included in the standard;
- the radiators have been installed in systems with an operating pressure that is higher than the maximum guaranteed and indicated in the catalogue;
- the radiators have been installed in systems with an operating temperature that is higher than the maximum guaranteed and indicated in the catalogue;
- the radiators have been repainted at a temperature above 100 ° C.;

b. For bathroom and toilet and bidet products:

- any deterioration of the chrome plating is due to the use of acid abrasive detergents;
- installation has not been carried out in a workmanlike manner and in accordance with the standards and customs of the sector, as well as the assembly instructions provided by ERCOS supplied with each product.

c. For radiant systems:

- the laying, testing and first start-up of the radiant system have not been carried out and documented according to the UNI EN 1264 - 4 Standard;
- failure to observe safety requirements (lack of safety thermostat, water pressure too high in the system), careless or improper use of the radiant system (radiant system temperatures too high);
- there is anti-freeze in the water of the heating system;
- the water in the heating system has not been conditioned with an appropriate “anti-algae” chemical treatment;
- poor or non-compliant functioning due to failure to use materials that are compliant with the development of the Open floor executive design;
- components not supplied by ERCOS have been used in the radiant systems and are not compliant with the intended use;
- improper repairs not authorised by ERCOS.

The forfeiture of the guarantee implies that ERCOS cannot be held responsible for any damage or request for reimbursement or compensation resulting from defects or faults that are due to incorrect installation, manipulation or tampering as indicated above. To the extent permitted by law, the parties expressly exclude any other type of guarantee, including the guarantee for defects provided for in articles 1490 et seq. of the Civil Code, within the limits set by the second paragraph of art. 1490 CC; the guarantee provided in this Article 10 is the only expressly warranty provided by ERCOS in relation to the products sold.

11. Product liability

Any damage to third parties caused by defective products and resulting from product liability is covered by a specific insurance policy and will therefore be managed according to the times set by the policy itself.

12. Jurisdiction

In the event of a dispute deriving from the supply relationships governed by these general conditions the judicial authority of the Court of Brescia will have exclusive jurisdiction with the express and agreed exclusion of any other competing or alternative court.

13. Applicable Law

All contracts concluded with ERCOS are subject to Italian law. The parties expressly exclude the application of the provisions of the Vienna Convention on the international sale of movable property of 11 April 1980, ratified with law 11 December 1985, n.765.

14. Translations

As regards the translations of these general conditions into a language other than Italian, should there be disagreement or uncertainty about the meaning or interpretation of one or more of these translated provisions, the Italian version shall prevail.

15. Conclusion of agreement

The conclusion of the Agreement will take place after the customer has signed these Supply Conditions and following the written acceptance of the order by ERCOS via order confirmation, or from the moment in which the execution by ERCOS begins, the same being considered as an implicit order confirmation.

16. Data processing

Both parts are committed to compliance with the Data Protection Regulation (UE 679/2016 and Legislative Decree 30th June 2003 n. 196 and subsequent amendments).
